Hon. John Lynch Nominated
for Member of Congress.
from 1st District.

TEXAS STATE ELECTION.

Overwhelming Majority for the
Conservatives.

SACOS, Mo., June 26.
At the Union Congressional Convention for the 1st district held here today, Hon. John Lynch, Portland, was re-elected by acclamation.

PORTLAND, June 26.
The First District Republican Convention at Sacos today nominated Hon. John Lynch for re-election to Congress.

The election in this State passed off quietly. The Republicans, the conservative candidates for Governor, have a large majority in the city, and will probably get nine-tenths of the vote of the State.

LOUISVILLE, June 26.
The Union candidates for the Clerk of Appeals, Messrs. Kelling and Boston, have withdrawn. Gen. Hobson, formerly of the Federal army and captain of Morgan and President of the soldiers late convention has been nominated.

NEW YORK, June 26.
There has been one cholera death in the city since last report.

The Robert wing of Fenians hold a mass meeting last night and denounced the neutrality law, Secretary Seward and President Johnson.

NEW YORK, June 26.
At three o'clock this afternoon, the up-graded train was thrown from the track, killing C. B. Wheeler, conductor, and three passengers, and seriously injuring Martin Lee, engineer, and several others. The accident was caused by some persons placing a telegraph pole across the track.

NEW YORK, June 26.
Four persons were sun-struck yesterday in the city.

ST. LOUIS, June 26.
Trains were now running through from Leavenworth, Kansas, to this city, via the Missouri and Pacific R.R.

NEW YORK, June 26.
No new cases of cholera have occurred at quarantine.

Thirty-Ninth Congress.

FIRST SESSION.

WASHINGTON, June 26.

Senate.

Bill amendatory to the organic act of Washington Territory passed.

Bill for the relief of the owner of ship Magdonno was passed.

Bill amending and continuing in force the act establishing the Freedmen's Bureau was taken up and passed.

It continues in force two years, and provides for the care of all loyal refugees and freedmen. Two additional assistant commissioners are to be appointed. All assistant to be appointed shall be of proved loyalty.

All appointments shall be deemed in military service and under military protection. Officers of the veteran reserves or volunteer reserve, now on duty in the Freedmen's Bureau, may be retained with the same rank as heretofore.

The act made no heads of negro families, of certain lands in South Carolina, by the tax commissioners in September, 1863, are confirmed, and leases made at the same time are changed into certificates of sale. All lands in the parishes of St. Louis and St. Helena, except such as may be needed for military or naval purposes, are to be disposed of in twenty acre lots at \$1.50 per acre, to such persons only as are now or have been land agents to Gen. Sherman's order.

The purchasers are not to alienate them within six years. Certain powers are given to the commissioners.

It also provides for the restoration by the President to the former owners of the lands in the Sea Islands, now occupied by persons under General Sherman's order, on certain conditions. The restoration is not to be made until after the crop of the present year shall have been gathered by, and a fair compensation given to the present occupants for all improvements.

A conference committee was asked on the army appropriation bill.

The Senate then went into executive session.

Adjourned.

House.

The bill to pay bounties to "Greybeards," the 37th Iowa regiment, which was laid on the table a few days since, was taken from the table and passed.

The committee of conference reported back the Senate bill to regulate the transportation of nitro-glycerine with amendments.

The amendments were agreed to and the bill was amended passed.

The committee reported a bill declaratory of the act of Feb. 10, 1863, authorizing the Secretary of the Treasury to issue registers to vessels in certain cases, which was passed.

LOCAL AND OTHER ITEMS.

—Yesterday, the thermometer stood at 92° in the shade.

—Mr. W. J. Weeks, at No. 3 Smith's Block, advertises a new and superior stock of American, English and Swiss watches, clocks and fine jewelry generally. Mr. W. has recently purchased in New York, at an expense of \$500, one of the best regulators in the country, and is prepared to keep the standard time. This regulator is worth looking at.

—There is trouble in Portland about the Atlantic & St. Lawrence Railroad bonds.

—There being back interest due and unpaid to some considerable amount, as we understand it, the holders propose to take the road, as they have a right to do; but the Grand Trunk Company tell them that, if they do, they will have to find rolling stock and run it themselves—and that, too, without being allowed to connect with the Grand Trunk of Canada. The Portland business people of course object to this and the road, in fact, would not be worth much under such circumstances. There have been several meetings about the matter, but, as we gather from the Star, they have been rather on the secret session order—strongly being given to reporters that they had better say nothing about the discussions. The fact seems not to be a pleasant one, if the facts are as we suppose.

—The cars were crowded yesterday morning by delegates to the Congressional and Universalist Conventions held at Bath and Auburn. Dr. Pond, Mr. Battles, and various excellent brothers of both Denominations were mixed up in such glorious confusion that it was almost impossible to tell who was "Orthodox" and who were not.

At Kendall's Mills it was made plain by the Congressionalists taking the narrow path, and the Universalists continuing on the broad road. However, the end is not yet.

—The Addressing County Soldiers' and Sailors' Union was permanently organized in Lewiston on Monday, by the election of Gen. James A. Hill, Auburn, President; Lt. E. P. Toby, Jr., of Lewiston, Secretary; and Lt. Wilbur F. Moore of Greene, Treasurer.

A Vice President and a member of the Executive Committee are to be chosen from each town in the county by the soldiers and sailors residing in such towns.

—The two companies of United States troops stationed at Fort Probie, who were sent to St. Albans, Vt., to preserve the enforcement of the neutrality laws during the late Penian invasion of Canada, have returned to their former post.

—The Annual Convention of Universalists in Maine commenced its session in Auburn yesterday. A very large number of delegates were present, the East turning out in large bodies. The town is crowded.

—The Gardiner Reporter says that a number of young men of that city have, during the past week, enlisted at Augusta for the regular army. They will be sent to New York or Philadelphia and be assigned to some regiment there.

—Messrs. A. C. Dennison & Co. have erected a new paper mill at Mechanic Falls, making four now in operation in that place. We suppose there is hardly a more profitable manufacturing business in the country than paper-making.

—Dr. Garcelon of Lewiston is a competitor for the Congressional nomination in the Second District. "Mr. Perham," the present member, is a candidate for re-nomination. The Convention will be held at Auburn tomorrow.

STATE BANK BILLS STILL GOOD. We have been shown a letter from the Association of Bankers, declaring that State bank bills will continue to be taken in Boston after the 1st of July. This will greatly facilitate business in many quarters. —[Portland Star.]

—The State Congressional Conference commences its annual session in Bath today. It will be fully attended.

—A drunken man in Chicago, Ill., on Tuesday evening, swallowed arsenic enough to poison two or three sober men, who took a good night's rest, and woke up all right in the morning. While eating breakfast, he was taken suddenly ill and died in less than two hours.

—Dr. Morse in charge of the military hospital at Brownsville, Texas, was recently assassinated and murdered. He had started on a visit to camp three miles out of town, when the outlaws, issued, dragged him out into the chapparal, murdered and robbed him.

—In Cambridge, Mass., a school-girl seventeen years of age, was severely whipped by three teachers, with a leather strap fifteen inches long, doubled and sewed together. The School Committee didn't think the charge was proved by the girl's own testimony. The young lady's friends propose to sue what the courts of justice will say about it. The brutal flogging of children in our public schools is a relic of more barbarous ages, and ought to be abolished. There are much better methods of securing subordination. No child was ever made permanently better by such discipline, while many have been ruined for life by the disgrace.

A WHIST PARTY. Some time within a year, a gentleman and three ladies spent the evening in playing whist in this city, the youngest of whom was over eighty, and the oldest ninety-five years old. It was not designed to be an "old people's" party, but the meeting was accidental, the two oldest being out to spend the evening with the gentleman and his wife. —[Newburyport Herald.]

—One of the Philadelphia fire companies is going on a European trip next spring—visiting the Great Exhibition at Paris. They take their machine, and will spend at least \$700 a man. They have a Philadelphia built steamer, and will play her against any other steamer of her size in the world.

—The Boston Public Library contains 123,000 volumes. Its largest contributors are Joshua Bates of London, who gave \$100,000 worth of books, and Theodore Parker, who left 11,000 books and 3,000 pamphlets. In 1865 nearly 100,000 books were lent, or an average of 708 per day.

—An explosion recently occurred in the fireworks manufactory of M. Aubin, in Paris. The firemen found twelve dead bodies. Every person in the place at the moment of the explosion perished. Close by, in another building, were discovered five men, and corpses, and nine men still alive but fatally injured.

—Boston has supplied public baths to her people, at an expense of \$10,000, which will lead out. They are simply proper contrivances for bathing in the waters of the harbor. Thousands of persons enjoy their liquid coolness every day.

—The wheat crop in Georgia is harvested, and turns out by no means as bad as feared. The Alabama harvest is also a fair average.

—A Roman chariot race in Philadelphia, the other day, was won by a "New Yorker." The fair contestants were clad in Amazonian costume.

—A Prussian newspaper has been seized because it intimated that the conduct of a Royal five-week-old baby was not altogether quiet during baptism.

—The importation of bones of animals from districts which have been infected with rinderpest will be prohibited by Congress.

The Freemasons celebrated the anniversary of St. John today by a pilgrimage to Mount Vernon, with their female relatives and friends, under the management of the Commanderies of Knights Templar.

THE VALLEY OF THE AMAZON. In a lecture on the Amazon, delivered at Rio Janeiro, Prof. Agassiz said the general impression in regard to the Amazon river was very erroneous, not only in regard to the climate of that region, which he had been informed was unhealthy, but also as to its fertility. He found the valley of the Amazon uncommonly fertile and its climate very healthy. It was his opinion that it would one day become the mart of the world, supporting in comfort twenty millions of inhabitants.

A person who has recently visited the Shenandoah Valley says it is wonderful to see the profusion of cattle and poultry in this "denuded" valley, after the devastation it was said to have suffered. Except the absence of fences in some places, now and then a fortification or a burned barn, no one would suppose an army had been in the valley. One or two years crops will place all the destruction that has been made, except loss of life.

SUN STROKE. An eminent physician of New York affirms that "no native American is ever attacked with sun-stroke." He says that those who are most subject to the attack are recently arrived Irish and German emigrants. Some years ago, one hundred Germans died on one Sunday from sun-stroke.

He traces the cause to excessive eating of flesh, and daily imbibition of intoxicating drinks. He says too much blood, of a highly-inflamed character, is the result. A surgeon attributes a great part of sun stroke to a lowering of the resisting force of the body by the daily drinking of ice-water. An old Philadelphia doctor considered the frequent drinking of ice water as a fruitful source of stomach inflammation, consumption and intestinal affections.

UNION MEN ASSAULTED. Mr. Perham of Maine introduced a resolution setting forth that one John A. Bryan of Oxford, Me., was recently assaulted in Augusta, Ga., by a citizen of the latter place, because of his (Bryan's) efforts in decorating the graves of Union soldiers, and that Captain G. G. Richardson, also a citizen of Maine, was attacked in Tomesville, Georgia, by a man named Lightfoot, &c., and requested information in regard to these assaults upon Northern men doing business in the South. Resolving the reading of the resolution the morning hour expired, and it was laid over under the rule.

THE HEATHEN OF LONDON.—Here is an account of one district.—Not one person in a hundred attends a place of worship. Of the two hundred and twenty-eight shops in the district, two hundred and twelve are open on Sunday. About fifty, however, are closed on Saturday, the Jewish Sabbath.

Not half the Gentile adults can read. Half the women cannot handle a needle. Our Mothers' Meeting has seventy members, half of whom, though living with men, and having families, are unmarried, and this is the proportion throughout the Gentile district. Nine families out of ten have but one small room in which to live, eat and sleep. Not one family in six possesses a blanket or a change of clothing. Not one in four has any bedding beyond a socking, containing a little flock or chopped straw (a miserable substitute for a mattress.) Not one in two-

ty has a clock—not one in ten a book. Many of the houses are in the most wretched condition of dirt and filth—walls, ceilings, floors and staircases broken and rotting. Drunkenness, brawling, blasphemy, and other sins are fearfully prevalent.

THE EDUCATION OF THE NEGRO.—Finding that the freedmen will be educated, the efforts of the Northern people, despite the opposition of their late masters and the Southern white population generally, the papers of the South are beginning to urge upon their readers the duty of taking the education of the negro into their own hands, so as to get rid of Northern school teachers, and prevent the freedmen from becoming imbued with Northern ideas. The Augusta, Georgia, Constitutionalist concludes a long article on the subject as follows:

"If the freedmen are taught to read, they will soon come in possession of the truth concerning themselves and the slave trade, and the part performed by the North in that trade. They can also learn that their emancipation by Mr. Lincoln was defended as a 'war measure,' and was not based upon love for the negro. They will discover that the secret of the Radical party is not that it hates the negro less, but, his former master more. The South has everything to hope and nothing to fear from a proper education of the negro."

CRUEL PUNISHMENT. Mrs. Dr. Walker, recently arrested for wearing the Bloomer rig in the streets of New York, and thereby shocking the modesty of that very moral city, recently made a speech at the National Dress Reform Association, in which she suggested that the greatest punishment that could be inflicted upon Jeff Davis would be to dress him in the hoops and long styles of dresses of the present day, and require him to do the work of a four story house, and be made to go up and down stairs seven times a day.
